

Annual summary and expenditure report on prospecting and exploration

The information in this form is required under regulations 35 and 37 of the Crown Minerals (Minerals Other than Petroleum) Regulations 2007.

- › Please note that information provided with your application is treated confidentially but may be subject to release under the provisions of the Official Information Act 1982. If this is the case, we may consult with you before the material is considered for public release.
- › The personal information you must include in this form is needed to process your application under the Act. You have the right under the Privacy Act 2020 and/or the Official Information Act 1982 to access information held about you by New Zealand Petroleum & Minerals and request that this information be corrected if necessary.
- › The information you provide in this form may be used for regulatory compliance or enforcement purposes according to the Ministry of Business Innovation and Employment's [**Transparency Statement**](#).

Permit holder legal name and address	Permit type	
	Permit number	
	Reporting period	From
		To
	Operation name	
	New Zealand Business Number (NZBN):	

SECTION A: TIER 1 AND TIER 2

1: Drilling

Progress status: ☐ Not started ☐ In progress ☐ Completed Date completed / /

Drilling type (tick one)	Metres drilled	Holes drilled	No. of assays
☐ RAB (Rotary Air Blast)			
☐ RC (Reverse Circulation)			
☐ Diamond			
☐ Other: please specify (eg Auger, Air Core, Cable Tool, Dual Rotary, Sonic)			
Other drilling activities:			
Additional information:			

2: Geochemical

Progress status: ☐ Not started ☐ In progress ☐ Completed Date completed / /

Coal quality analysis:	No. of samples	Total sample volume/weight	Cubic metres/tonnes/kgs
Bulk sampling:	No. of samples		
Geochemical sampling:	No. of soil samples	No. of rock samples	
	No. of stream sediment samples	Total No. of assays	
Test pits: No. of test pits			
Other geochemical activities:			
Additional information:			

3: Appraisal

Progress status: ☐ Not started ☐ In progress ☐ Completed Date completed / /

Scoping study:	☐ Yes ☐ No
Pre-feasibility study:	☐ Yes ☐ No
Mine feasibility study:	☐ Yes ☐ No
Additional information:	

4: Total in-ground resources

Please fill in the estimates of total in-ground resources. This is the permit holder's estimate of the total in-ground mineral resource within the permit area. This estimate should include resource that doesn't have the prospect of economic extraction and is not limited by resource classification codes (such as JORC – Joint Ore Reserves Committee).

5: Other activities

Please report any other activities undertaken in the permit.

6: Reports

Please list all reports created in relation to the permit for the year to which the permit relates:¹ Where possible please provide the report number e.g. MR, CR.

1	
2	
3	
4	
5	
6	
7	
8	

¹ These reports are to be submitted to New Zealand Petroleum & Minerals not later than 40 working days after the commencement of each permit year as required under regulation 33 of the Crown Minerals (Minerals Other than Petroleum) Regulations 2007.

7: Expenditure for the reporting period on prospecting and exploration*

Prospecting and Exploration expenditure	
Data compilation	\$
Mapping	\$
Geochemical sampling	\$
Geophysics	\$
Drilling	\$
Test pitting and bulk sampling	\$
Appraisal (resource estimations and mine studies)	\$
Total Prospecting and Exploration†	\$
Other Expenditure	
Consenting	\$
Administration	\$
Total Other Expenditure†	\$
Total Expenditure	\$

* All amounts should be entered in \$NZ (GST included).

† Other expenditure excludes land acquisitions.

8: Is this a Tier 1 permit?

☐ Yes	Complete Section B.
☐ No	Go to Section C and sign declaration.

SECTION B: TIER 1 ONLY

9: Resources and reserves²

Is there a resource or reserve estimate? ☐ Yes ☐ No

Resources and Reserves must be reported in accordance with a recognised resource classification code. Under the Act these are the JORC Code, Canadian National Instrument 43-101, or the South African Code.

Resources are inclusive of Reserves.

2 Resources and Reserves must be made in accordance with the Canadian National Instrument, the JORC Code, or the South African Code other than those relating to underground resources that do not meet the royalty or production thresholds specified in the third or fourth column of Schedule 5 of the Act. Resource and Reserves should reflect each estimate area within a permit rather than a permit wide Resource and Reserve. Resources are to include Reserves.

Resource and Reserve estimates should be for individual deposits within a permit, not the permit as a whole.

Provide a spatial definition of the resource and reserve areas. This can be either a map or a digital model of the resource, but should enable NZP&M to get an understanding of the subdivision and extent of the resource.

Please fill the table on the **Resources and Reserves Spreadsheet**.

Please fill in the table below and attach the information as requested below.

Information required with Resource and Reserve estimates:

Competent person sign off for Resource and Reserve estimates	Attached ☐ Yes
Table 1 relating to the Resource and Reserve estimates	Attached ☐ Yes
Spatial definition of resource and reserve area	Attached ☐ Yes
Resource and Reserve estimates are made on the basis of:	
i) Scoping study	☐
ii) Pre-feasibility study	☐
iii) Feasibility study	☐
iv) Other specified basis (Please specify)	☐

10: Iwi engagement report

Section 33C of the Crown Minerals Act 1991 states that every holder of a Tier 1 permit must provide to the Minister an annual report of the holder's engagement with iwi and hapu whose rohe includes some or all of the permit area or who otherwise may be directly affected by the permit.

The report should also note any engagement with or notification to iwi or hapu that has taken place as a requirement of any other legislation.

Attach the Iwi engagement report or provide in the space below. Attached ☐ Yes

SECTION C: TIER 1 AND TIER 2

11: Declaration

I declare that any information provided in this submission is true and correct to the best of my knowledge and that I am authorised to make this submission on behalf of the permit holder.

NZP&M is a branch of the New Zealand Ministry of Business, Innovation and Employment. We manage New Zealand's Crown Mineral Estate. Our aim is to maximise the gains to New Zealand's economy from development of these resources, a key component to the government's Business Growth Agenda. To support this aim we endeavour to educate and inform New Zealanders, including consultation with indigenous stakeholders and local government.
